hey jasp, wut does that spray look like not blurred, i wondered what that was.

My name isn't 'jasp' first of all, it's j4s[p]. Never meant to be called 'jasp'.

And here is the original \*.gif that I used. It was kinda gay because I had to shrink it to 64x64 to get it under 120kb and then CS:S stretches it out to 256x256.
