Runtime Error: Can't use an undefined value as an ARRAY reference at script/brenbot.pl line 4954

I've had this error a couple of times wen my bot joined me on IRC (when i tried first command) IRC shows msgs from ingame (no team msgs though) N when I msg wiv host n the blue panel it doesn't show it either - The bot works on IRC i can !help n stuff, then the bot answers but there doesn;t seem to be connection between Bot-Server
