## Subject: Renguard is crashing whole the time
Posted by Aeba666 on Fri, 07 Jan 2005 00:59:17 GMT

My renguard is crashing the whole time. A few seconds after i join a renguard game renguard bring me back to dekstop. In the renguard console stands than "disconnected from renguard network".

Today it's the first time i have this fucking problem. Nothing than trouble with this fucking computers.

Anybody know what the problem is or have the same? What have i to do?

I reinstalled renguard, but the problem still excist!

Regards,
Aeba
