XeonTeamhmm,u think i am a angry teen that cant get laid and that cant play renegade... commin from you.... yeah i may not have a life, but i got a computer, what do u expect a white hat hacker to do... no i am not a cheater... i am a creator... in away. U ppl call me lame... i say go back to when ren was a GAME! No rengay, or SSG, if we still use it... u ppl wont understand... u drown urself in ur own self importance...

IP! I have a dynamic IP, meaning for unoobies... = simplest terms for u: IT CHANGES EVERY TIME I RECONNECT TO MY ISP (INTERNET SERVICE PROVIDER...) so sad...

Lol you a creator, come on. Renegade has an easy flaw, to fake a name this really isn't new. And actually it can be passworded protected on the servers it self, if it's running a bot I think.

And why should people be forced by you to play the game the way you like anyway?

I so much hope your being sarcastic about this part.
