SuperMidgetIMO, i agree with the nod soldier as the WORST character to use, he is, by far, the weakest (in fact) unit to use. Lowest HP+Armour (obviously = to gdi and engees) and the LOWEST attack period.

I'd rather have a Nod Soldier than a Flamethrower in almost every situation. Arguably, I'd take him over a Tib Sydney most of the time as well, or a regular Rocket Officer.
