Reborn got an award?

RenAlert isn't "dead", just because it will be moved to a new engine doesn't make it dead, it's still the same mod, the same team, etc.

I men't the W3D version.

Reborn isn't dead btw...

And I meant the mod itself.

No it's not dead, yet, it's just in a catatonic state... You can see some progress once in a while but it isn't really going anywhere.
