Isn't that the point to find the most controversial thing possible and focus only on that? I mean it's only what you've done for the past year.

Quote:I fell in with the "Black Bloq," a group of anarcho-fascists whose only goal is to commit violence and incite chaos. I marched with them for hours as they chanted, "Tonight, We're gonna, Fuck! Shit! Up!" and "Hey hey, Ho ho, this civilization's got to go!" and "Shoot Bush, not dope!" and "No Bush, No Kerry, Revolution's necessary."

Bzzt, wrong. They're anarchists, which falls on the liberal side of the fence.
