XeonTeam: Just keep posting, thats want we want you to do, how many pages can we make it?

Others: I can bet what the mods/admins are doing, dynamic ips are annoying but there is a way to ban him/her. We just have to wait. Ill reveal my way of banage later. See what happens with the staff.

AND: brenbot, nightreg both have password support, and as i beleve it, when a player leaves the game, it removes everything when disconnected.
