PointlessAmblerWell, I figured since you were a trio that you'd all be different classes. That sounds like a lot of fun. Although, I think Pyrokinesis against monkeys is going a little overboard... you can just run up and wrench them and dodge their attacks. Although, I bet you get perverse pleasure out of burninating things

Umbral_DelaFlarePyrokinesis > All. To hell with Warranto's Fusion Cannon set to Death Mode.
