---

i recieved this error trying to install cp1. anyone know if there is a way to fix this without having to try to redownload it?

If you experience problems with renegade (e.g. renegade wont start, always.dbs missing, wrong language), make a note of what this program says and report it to blackhand studios.

```
language id=0
english detected
removing old always.dbs
removing new german always.dbs
removing new fench always.dbs
renaming new english always.dbs
now renaming scriptsx.dll to scripstx.dll
error 17
```

any help on this is much appreciated.
