On the one hand, what I said was an in-joke.

On the other hand, he was telling people in the "Gay Bomb" thread that he'll be joining up with the military, far, far away from any action.

So once again I say that he's got quite the attitude for all these soldiers in Iraq, risking their lives daily for whatever cause they're fighting for this time [having had WMDs, liberation, oil etc], but when he's asked, like many... "pro war kids" to go and put his own life on the line, it's "sure... as long as I'm at least 200 miles away from any fighting, anywhere".

Not that what I say matters, not being American :rolleyes:
