I've always known that the #1 reason that cheating fags like you cheat is to get off on making people mad. Everytime you kill someone you practically jizz in your scooby doo underwear with the glee of having "pwned" someone, and thinking that they are so mad at you that they wish they could reach through your monitor and kill you, but they can't and you are just some godly figure laughing as you stir up some little ants.

The truth is, nobody is in awe of you, or really gives a rats ass about you other than that you are interrupting a game. You don't anger us, you simply cause us to pity your pathetic little lives as you giggle at your monitor in your dark room, with your failed report card and crusty socks from jacking off to shemale porn because you are too antisocial to have a girlfriend, much less any real friends.

RenGuard owns you. You are nothing to us, but another banned cheater. We get over you the second you are kicked. Maybe you should do the same.
