Exdeath you need to backup what you are saying  
I guess those HL2 benchmarks are just phony eh?

ANyway, the best card is:

X800 PRO VIVO, bios swap to X800 XT PE,  
you can get the pro vivo for 385.00, the XT bios can be flashed on it and it becomes an XT PE  
card.

They are manufactured as the same card, ati just puts a crippled bios on the x800 pro vivo
