I dont know how well known this is, but Microsoft is recalling alot of their power cords. My brother just sent me the link, and i had no idea.

<http://replacements.webprogram.com/>

They will ship you one completely free.

Quote:Microsoft is providing new power cords at no charge to replace the cords that originally came with some Xbox consoles. You will need your Serial Number and Manufacture date to verify if your Xbox Console requires a replacement cord. This is located on the bottom of your console. If you have your Manufacture date and Serial Number and are ready to continue, please choose Place An Order below.
