OK try this go into game spy and/or start a regular single player renegade, look to the button right corner it should say 2002 Electronic Arts Inc All rights Reserved under that is your renegade version does it say v1.037 if no you need to update your renegade with ftp://ftp.westwood.com/pub/renegade/updates/Renegade_1037_English.exe if yes did you restart after you did renegade update?

PS: AuroraX0 if you are not going to even try to help don't make fun of someones English skills because he can be from another country or English may not be his first language.
