Je m'en fous. Et ça te fais chier de rien comprendre à ce que je vois.

I don't care if you think I am an idiot, my life is not built around this place like some of you. Understand me well this time : I don't fucking care about what you or anybody else on those internet forums think about me.

On another way : each time you share with me your dumb opinions or ideas or your point of view, you are losing some of your time talking with your computer or walls. If you don't understand that you will argue again on this thread like the dumbass you are.

(this is also true with jACKass and gAyprime)

I don't care for real :
