I bought the bundle pack for Total Annihilation (The Commander Pack) a few years ago from EB Games. I had the original Total Annihilation before but I didn't have the expansions. So I bought that commander pack instead to get all the games for it.

I'm glad I bought it.

It is a definite shame that Cavedog is no longer here. They were previously working on a FPS game called Amen: The Awakening. It was a really neat looking game. But the game was never finished sadly.
