Renardin6l would like to make a legal pursuit against Jonathan D. Holmes for using private work of my mod and posting it on the internet.

If he actually uses it on any of his work, then yes: perhaps you'd have some legal recourse. However, posting a picture of it on a website does not constitute "use".

Making a vehicle, putting it on, then distributing it... that would be "use"

If it indeed was a secure place, then perhaps you have some recourse against them for that action.

Edit: quick reminder... Lawsuits cost money, lots of money. So if you are willing to spend the required funds to attempt a lawsuit, then that's your prerogative.
