Sir PhoenixI preordered Tiberian Sun, and had gotten the large shiny Platinum Edition (I still have the box ) with the Pewter Nod Soldier... (no: 17170 )

Tiberian Sun was very late. From all the hype, advertisements, etc. I thought it was going to be alot better than it was, but it wasn't... After I got into it, I was quite disapointed.

nice, i've been trying to get one of those pewter soldiers off eBay
