flyingfoxl uninstalled call of duty because of several multiplayer flaws; for a few, the m1a1 carbine has went unfixed for five patches and running (I e-mailed them twice) and run-and-gunners using the russian ppsh or american thompson seem to evade hit detection half of the time when there is little server lag.

I would rate perfect dark as top game alongside goldeneye, because goldeneye's missions were more original but perfect dark had a waaaaay better multiplayer. Although I love that multiplayer map called library in golden, aye..

I would love to see a remake of Perfect Dark for PC. With all the maps and a extensive multiplayer, it would own
