rm5248I think that if you have C4 on you and you are in a vehicle when it blows up the vehicle will blow up.

Nope. The C4 only damages your vehicle. (unless it's a buggy or something)

Quote:1100 damage?

apc=600
char=350

?

Final Renegade cheat I guess could be possible

600+350=1100 duh! :rolleyes:

It doesn't have to be FR... Anyone can make "cheats", it's as easy as editing a rules.ini.

To find a cheater, look for people with the 0 bug, they can't damage you so they are spotted fast unless they restart the game and rejoin the server.

If you think someone cheats, ask him to hit you (damage check), if he leaves the game and rejoins saying he "disconnected" (or something like that) you can be sure of it that he cheated (most cheats need renegade to restart for them to be activated or de-activated).

Or just use RG.
