My renegade hasnt been starting up when i open it so i reinstalled it. WEll i did that and it still does the same thing,so i uninstalled and delted every renegade file left and reinstalled again...same thing !!Ok look, i double click renegade to play and it brings up renegade box thingy but doesnt take me 2 main screen(screen where u choose 2 go online or play single player or w/e) anywayz ya this is a new renegade cd not scratched but it does the same thing after every reinstall....can anyone help me ?...plz?
