I think that looks boss. I dont care what some of you say. There are some flaws. But damn, its a modification, not something you are going to buy.

AK, your buildings are FAIRLY accurate but even you have changed things. Remember the Silo for the Source engine you created? It had NO blue on it whatsoever. Moral: small changes dont matter to the gamer who plays it. Renegade is a great game but VERY innacurate to Command and Conquer Tiberian Dawn.
