God damd it!

I have been here all this time and I still have below 200 hundred posts! What the fuck is wrong with me?

I know what!

I should be like deadfive! I must now come in here every day (I do come here everyday to read but we are just going to have to ignore that for now,) and post at least two topics perday every day about shit websites and things that I have seen trolling other forums that I don't even post on! That way everybody will like me!

I have to make up the 9000 or so posts I should have made, because the more posts I make, the bigger part of this community I am![/RANT]

This is what happens when I wakeup too early.
