I might consider putting level 10's *.3DS file up for download depending on how much complaining you people do about the fact that I actually have the source Max file for it.

It does contain everything for level 10, including the alien ship and the SP Hand of Nod which I had put on Planet C&C.

I have all sorts of neat things in the source Max format. Original Nod Apache, Tiberium Harvesters, Medium Tank, the only CTF level, the only DM level, Noddingham, multiplayer Helipads...
