PS: i think that the people who made this and the people who use it are all babies. WHO CARES IF U GET CHEATED? LIVE WITH IT OR QUIT THE GAME!!!

it would make more sence to stop every one but u fron cheating because onther peoples renguard will stop u.

that way u wouldnt have to worry about downloading mods and skins.

Its not fair either, beause servers require this damn acusrsed thing.

The only reason i think people get renguard is because they want to play renegade online not get protected... Actualy i dont care if there is any one cheating all u have to do is say someone is cheating when u find out and just play with them untill they are kicked

it makes the game harder and more fun to play.

Look im not incourageing cheating or any thing but i just want to let every one know that how unfair this stupid thing is.

ALL I WANT IS TO PLAY RENEGADE AGAIN!!!!!!!!!!!!!!!!!!!!!!!!!!!
