Quote:How long would it take to move your cursor from one side of the screen to the other with a stick compared to a mouse? How about drag selecting?
Probably not as quickly, but it depends on how much you move the nub.

Quote:Why do you think RTS games haven't been a particularly big hit on consoles?
No reason. Sony makes a keyboard and mouse for the PS2, so if there were RTS games on the PS2 and someone wanted to they could play it with a keyboard and mouse.
