Majiin VegetalIRON FARTConquest Winter should be added to that poll...

is that not the REALLY huge map that is never won by base destruction and only points?

No, you're thinking of C&C_Field.

I've played it many times with an average of 10 people, and it ran just fine. (And I don't have an absurdly fast computer)

Quote:

Conquest winter is a nice map indeed, there is only ONE reason i didnt include it:

Once there are 10+ players in the server -no matter how fast your pc is- everyone will start to FPS lag like hell because it has no VIS setup on the map probably.

If the author would fix 2 things in that map, it would be great.

- VIS Setup so people don't suffer
- The cargo plane for Nod flys by really high and vehicles are spawned very high up.

If that would be fixed, it would be great. That map is awesome with stealth tanks.
