flyingfoxam I the only one who doesn't like bunkers TS and thinks the original bunkers should go in? Bunkers was originally a WW map that never made it to the game so don't you think you should be adding pro-made maps like these as first choice? it's a map set at night, rainy, with base defenses on. apart from that it's the same as bunkers TS except it has no recon bike, missiles don't seek and the mammoth's tusk missiles are set to their defaults.

If they were to release the original bunkers, im sure they would release the newer version, 1.2, which does not have base defenses.
