Creed3020Sympatico where I live (HSE), is 2.5 Mb/s and 700 Kb/s, The ultra package gets you another 1.5 Mb/s more, though Rogers Extreme is the fastest available around here at 5 Mb/s. Not too bad, but it should be going around 3.0Mbits, I know my friends that have Sympatico get around 2900, and thats not ultra.
