ideboOblivion165flyingfoxicedog90This is not World War 2.

I thought the game was set around the world war 2 era..

It is.

Well erm.....Red Alert is ww2, but renegade is a mix of tiberian sun and red alert...i guess.

Lol, Red Alert isn't WW2, and Renegade is a mix of TD and TS.

In terms of C&C it replaces the event that was World War 2. And everybody knows that Renegade is a remake of the Vietnam conflict :rolleyes:
