Sir Phoenixx Assuming you meant "He swears he isn't biased...". Just like with your claim of favoritism, it's not bias/favoritism unless he treats Aircraftkiller differently. For that to be true he'd have to ban (or delete messages/etc. from) others, while not doing anything to Aircraftkiller for doing the same thing, which he doesn't. He simply doesn't/didn't do it to anyone, not just Aircraftkiller.

Ya got me, I made a typo. "biased" in this form is a matter of opinion. For example, you may think that my opinion of his bias is biased, and that's okay.. as long as we both agree that my opinion of his bias doesn't have to revolve around yours. We're talking about perception here, not physics.
