Subject: Are you in to haunted places, historic places? [My new site]

---

I've created a new site which allows users to find haunted places in their area. But I need some help for it to grow. If you know of any places that are said to be haunted in your area, submit the place, and perhaps investigate it (upload some pictures).

Even if you don't believe in ghosts (I don't necessarily do), it's neat to see the pictures that people post, and the stories that they share.

The site is: <http://www.haunted-index.com>. If anyone wishes to help moderate, create graphics/layouts, anything, let me know.

(PS: Let's keep my past out of this. I've grown as a person, if you know what I mean.)
