icedog90*Sigh* you just had to get the 9200SE. That card sucks ass just so you know.
It's a budget card...What do you expect from it? It costs like 30 bucks, and for sure it is way better than integrated graphics.

It's no Dual 6800 Ultra that is directly connected to a miniature powerplant, while being submerged in an ice bucket, but it's better than integrated.
