Oh lets see now.

Things to know...

Why is the sky blue - when green is a more pleasing colour?

Why can't british TV have less american crap, and more home made british crap instead?

Has Shigeru Miyamoto lost his mind?

Will there ever be a Blast Corps 2?

Will I make 25?

Why is it so damn hard for americans to make a good fry up! They are bloody useless at it!

Why does voting in the UK feel like choosing the least of 3 evils?

Will they ever finish the last few episodes of the starship troopers series?

Where can I learn to be a happy mask salesman?

Things to be done...

Renegade 2

Nano tech, so I can merge with helios.

Finish my current run of books and get them published.

Upgrade the main pc to an xp3200 - 2 gigs of ram.

Have sequel to Bill and ted made... Bill and Ted the search for station.

Station!
