LaeubiDr. Hemroid

Well did u ever wanted to swimm across the ocean before learned swimming at all?

Sometimes it is needed to learn a few other things before you start with others...

I'm willing to learn the things before, which would be..?

I asked around on Renegade WOL, a person said theres alot of coding to go through.. i know a little about coding because i mod on Generals ZH and Yuri's revenge, taught my self by oppenning other peoples maps
