I use RenGuard for Clan Matches and that is it. Half RG servers in my opinion are a waste. People can still cheat on them and as it has been pointed out; !forcerg is used on everyone who is good, as opposed to everyone who cheats. My clan server does not use RG and that is how we like it. As long as the moderators can tell the difference between cheating and skill you don't need RG. If you do catch someone cheating, ban them, who cares about making them use RG.
