Xtrm2Mattls Splinter Cell: Chaos Theory seriously that good? I played the 1st one at my step brothers and found it.. alright.. nothing I could play for a while though. I've been hearing some good reviews about the game..

lmao, my review makes the game seem soooo crappy. Anyways, I couldn't give bad marks to it...

Artificial Intelligence: 8/10

Game Play: 9/10

Graphics: 9/10

Single Play: 9/10

Overall: 87.5%

It was a very good game for stealth gamers, not for the run and gunners.
