No shit what you read above is sarcastic. Did you have someone tell you that, or did you figure it out all by yourself?

Keep on main subject. I figured it by myself...ha ha ha  
I tough you would understand that (->sarcasm, ha!)

Well, we work fast enough for a release this summer. Don't know exactly when and of course it's not promised, shit can still happen. But we will try to make it ready this summer. We will do the best for it. If it's later, then it's because it will be needed.

Okay, enough with you. You keep trying to say silly stuff so "aurevoir monsieur j'ai le dernier mot".
