I suggest you got help out the FoF mod. I was thinking of doing a middle earth mod for another game engine, That is mostly because I'm play Lord of the Rings: The third age right now. I wanted to make a Dragonball Z mod when I was playing Dragon ball Z: budokia 3, I even started modeling a character for it. I get this way every time I play a good game.

If your going to make a mod of LOTR I think it needs to be an RPG.
