Ive been had this game but it was never fun until recently when i played it online . but i'm a noob i guess. i can shoot a another player a million times in the head but they shoot me a couple of times and Boom! i'm dead just like that. its even like that on renguard . what am i doing wrong?

are their any renegade version downloads for single player mode?  
where do i get them, if their are any?

What is aimbot 1.1?

!....
