Hey guys,

As you know I've been keeping you apprised of the FDS serial number situation. Unfortunately the error in the Java code was unrecoverable. As it stands there will be no more dedicated serial numbers issued. This will NOT affect the ones that are already issued. You will be able to continue to play on those servers.

The Renegade FDS serial number server has served us well for three years. I can understand why some will be sorry to see it go. Thank you for your patience and understanding in this matter.

I hope that you will join me in looking forward to the continuation of our Red Alert universe, Red Alert 3. I'd also like to thank the hundreds of loyal Command & Conquer fans out there who have been so supportive not only to me and my cause but to the legacy which is Westwood.
