AircraftkillerGotta love it when you rip off the TS menu because you can't replicate it yourself.

The infantry animations are all stock Renegade, notice a part where a soldier is using his arm to wipe his mouth off. That's wonderful, show us a bunch of animations that barely apply to Recorn: The Ultimate Corn Harvest! Especially ones that don't even fit a soldier wearing a full head helmet.

It's also amusing how some of the animations show the shoulder armor clipping into the soldiers' arms. Great forethought in making those characters!

How many fucking times do I have to tell you that this is a beta, things change. Take that fucking dick out of your ear and listen you moron.

I'm not siding with Reborn, I'm not siding with RenAlert. I'm just defending a team of people with a talent that you feel like bashing because you are the "ultra leet mod maker."
