apparently deth river is SO good, that the dadeth clan don't even run it (or any custom maps, come to that) on their server!! vote deth river today!!

but its ok, my asking you to vote deth river doesn't have any effect on what you vote when you don't care much about the poll. after all, it is a "public poll"

Was only a matter of time before one of you found our forums

and before you get all happy aircraftkiller this was not to spite you
not everything is about you :rolleyes:

btw we do not run a server last time i looked
and when we did we removed all fan maps to keep the server populated
