You are such a fucking retard it is almost inconceivable.

He leaked your shitty work, who cares?

How is he "pwned"? So what, he didn't give a damn enough to finish the projects on time. Wow, exposing that was such a "burn". Pfft, moron.

You know when you wish them to die, you lower yourself to their level. Then again, you're already a few (hundred) levels lower than they are.

Jonwil can't code for shit compared to SK. You're just massaging jonwil's balls so he doesn't go emo and cry himself to sleep instead of code for your pathetic mod.

Retardin, why don't you actually try and "own" us, so that we feel bad about ourselves and "circle jerk", since we are all "homosexuals"? Are you afraid that our "homosexual" selves will embarrass you?
