common guys

i love to play renegade,and i love the core patch,i think its great that the game is being held alive this way!!!!!!

i would never vote for a map that i didnt like,i have been playing renny since its release,and deth river is really a good map,but so is tropics,and i wouldnt mind if it was in the cp2 also.... i just think that river is little better and thats it

i cant say i know googse any better than i know ack..so for me its only the map that count !!!!!

i would like to now what are the 2 other maps that gonna be in ???
