jonwilJust to let everyone know, we have decided to put both Deth_River and Tropics into Core Patch 2 if there is enough space.

so wisely ,it is clear that we are dealing with 2 great maps here,and they really should both be in!

And i cant login or re-register as vild3r,it says my email is already registred all i can do is change my password O_o.

but then again i have never been good at all this shit...im a GAMER!!

still no1 tell me what are the 2 first maps to be in the cp2 ?

ohh and by the way :Im still proud that i was a deth,in my heart i still am !
