They (dadeth) won't have considered the other maps when they came here SPECIFICALLY to vote for deth river, after being informed it was in the poll. There was no "well wait a minute, is deth river really the best choice" about it. Come on.

edit: about the whole grammar thing, you say you tope like you want, but you can't be respecting your reader if you choose to type like shit. Forums filled with goons such as yourself are very shitty forums indeed.
