NineballHowever, since the map was created by HIS clan, and he got HIS clan members to vote for it, it'd be heavily biased REGARDLESS of the other maps.

it depends on every individual. everyone have their own mind and maybe.. just maybe 2 or 3 voted because the map was created by deth. but i doubt that a high number of people have done this, as you clearly can read that there is so many posts from people not in dadeth or associated thereby, that have voted for the map and posted a post on it.
