Intelligence has little to do with disliking something with a passion. I'm sure there's something out there you've badgered constantly; that doesn't mean you're stupid. It just means you're out to prove something and that you'll do it one way or the other.

I personally view you as being stupid for judging people's intelligence based on how much they dislike something. If that were accurate, you'd be just as stupid as the others you condemned.
